E. Brief resume of the judicial training activities developed (if applicable) by the network

The Forum was created with a view to raising the awareness of judges of the key role of the judicial function in the effectiveness of sustainable development.

The EUFJE has endeavoured to get involved into the process of EU legislation. The EUFJE is mindful that matters of policy are not matters for judges. A number of EUFJE suggestions have been adopted by the rapporteur of the European Parliament Committee for Environment.

The Forum can build on this experience and discuss during the annual conference on EU legislation in the making. The experience gathered by the Forum on EU environment law is of practical value for EU judges as well as for EU institutions.

The EUFJE has also taken part in the work of the UN, with the Aarhus convention on access to justice in the field of environment law.

Recent events:

2012:

- The Hague, Annual Conference: EU – Support for cooperation with national judges in the field of Environmental Law
- UNECE – Aarhus Convention – Task force on access to justice
- UNEP – World Congress on justice, governance and law for environmental sustainability

Other activities:

- Cooperation with the newly established 'European Network of Prosecutors for the Environment'
Cooperation with Pace university New-York and others in view of the creation of an 'International Judicial institute for Environmental Adjudication'.

G. Brief resume of the trends of cooperation and/or regular contacts established by the network with major judicial networks involved in the current project

The EUFJE is collaborating on a regular basis with the Working Party on Environmental Law of the Association of European Administrative Judges (AEAJ) and the European Network of Prosecutors for the Environment (ENPE) by inviting representatives of both networks to the annual conferences

and sending representatives to their general meetings or workshops. Furthermore EUFJE is, together with the AEAJ and the Association of the Councils of State (ACA-Europe), represented in the general assembly and the steering committee of the training program on "Cooperation with national judges and prosecutors in the field of EU environmental law" funded by the European Commission, which is now executed by the Academy of European Law. EUFJE will also continue to work with the Working Party on Environmental Law of the AEAJ in the framework of the Commission Expert Group of National Judges on Access to Justice in Environmental Matters. EUFJE will also develop some links with the EJTN and its main partners in the framework of the Pilot Project on European judicial training.
